

MOSES LEE

full-stack developer | financier | yogi

ABOUT

Developer specializing in the MERN stack with experience in investment analysis. Detail oriented with appreciation for design. Moves fluidly between both halves of the stack, and prioritizes continued learning to add greater value to the team.

RECENT PROJECTS

Shinobi Fokasu

Jan 2019

- A single-page card matching app that puts your memory to the test
- Built with HTML, CSS, and Javascript
- Used media queries to incorporate responsive design for various viewport sizes

Hodler

Dec 2018

- A mobile-based app that tracks the price of crypto tokens and portfolio value in real time
- Built with HTML, CSS, Javascript, and jQuery
- Integrated APIs from CoinMarketCap and CryptoCompare

EXPERIENCE

DigitalCrafts | Student

Jan 2018 - May 2018

- 16-week intensive, full-time accelerated learning program
- Adapted to a fast-paced learning environment which required rapid comprehension, willingness to learn, and flexibility
- Learned full-stack JavaScript ES6, including Node.js, PostgreSQL, Express, ReactJS, HTML/CSS, and Amazon Web Services

Fortress Group | Analyst

Jan 2015 - Nov 2017

- Assessed the viability of potential GP client fundraises through the review and analysis of investment strategy, team, track record, and market opportunity
- Assisted in the development of marketing materials for global capital funds across multiple alternative investment strategies worth over \$2.75B
- Conducted research on the alternative investment criteria and portfolio objectives of institutional investors (including public and private pensions, family offices, sovereign wealth funds, endowments and foundations)
- Drafted due diligence materials (including PPM, DDQ, RFPs, investor presentation) supporting customized correspondence with LPs
- Developed and managed a team of new analysts and interns
