MOSES LEE

full-stack developer | yogi | financier

ABOUT

Previously an investment analyst and now a full-stack developer specializing in the MERN stack. I am a strongly detailed oriented individual with an appreciation for design. I move fluidly between both halves of the stack, and prioritize continued learning to add greater value to the team.

RECENT PROJECTS

Hodler
Mar 2018

- A mobile-based app that tracks the price of crypto tokens and total portfolio value in real time
- Built with HTML, CSS, Javascript, and jQuery
- Integrated APIs from CoinMarketCap and CryptoCompare

Colour Swatches
Jan 2018

- A color matching game where the user is challenged on their knowledge of RGB values
- Built with HTML, CSS, and Javascript

EXPERIENCE

DigitalCrafts | Full-Stack Web Developer
Jan 2018 - Present

- 16-week intensive, full-time accelerated learning program
- Adapted to a fast-paced learning environment which required rapid comprehension, willingness to learn, and flexibility
- Learned full-stack JavaScript ES6, including Node.js, PostgreSQL, Express, ReactJS, HTML/CSS, and Amazon Web Services

Fortress Group | Analyst
Jan 2015 - Nov 2017

- Assessed the viability of potential GP client fundraises through the review and analysis of investment strategy, team, track record, and market opportunity
- Assisted in the development of marketing materials for global capital funds across multiple alternative investment strategies:
  - $1.5 billion US Middle-Market Private Equity fund
  - $670 million Natural Resources fund
  - $500 million Healthcare Structured Credit fund
  - $250 million Growth Equity fund
- Conducted research on the alternative investment criteria and portfolio objectives of institutional investors (including public and private pensions, family offices, sovereign wealth funds, endowments and foundations)
- Drafted due diligence materials (including PPM, DDQ, RFPs, investor presentation) supporting customized correspondence with LPs
- Developed and managed a team of new analysts and interns
